2004 Honda Accord Transmission Fluids, Oils, Additives ...

The transmission fluid in your 2004 Honda Accord should be changed about every 50,000 miles for optimum transmission performance. Allowing the old fluid to go far beyond this 50,000 mile-mark could create problems within the transmission system, as old transmission fluid becomes thick, sticky and corrosive. The worse the fluid gets, the more the various components within your transmission are bound to abrasively rub against one another.

How to Change the Transmission Fluid in a 2004 Honda Accord

This video shows you how to add transmission fluid to your 2004 Honda Accord. Before adding transmission fluid, make sure that your engine was running when you checked the fluid level. If the transmission fluid level on your Accord is low, you need to add fluid through the dipstick tube. Honda has been developed sophisticated transmissions through years and it is critical that you add the exact type of transmission fluid stipulated by your owner's manual (typically in the back of the manual ...

Add Transmission Fluid: 2003-2007 Honda Accord - 2004 ...

This article applies to the Honda Accord (1990-2002). The transmission fluid is commonly ignored because many assume it will last forever. In reality, the fluid can break down with varying temperatures, become contaminated with water and dirt, or leak out slowly.
