## **Absolute Value - Super Teacher Worksheets**

Answers and explanations. The correct answer is Choice (A). The straight lines indicate absolute value, which is always positive. Therefore,  $3 - 3a$  must equal 12 or  $-12$ . For  $3 - 3a = 12$ ,  $a = -3$ , which is not one of the answer choices. For  $3 - 3a = -12$ ,  $a = -5$ , which is Choice (A). If you

If it's a negative number that you're trying to find the absolute value of, and there are no other terms attached to it, then the answer is the positive of that number. The same goes for positive numbers, except they stay positive. For example, the absolute value of  $-2$  is  $2$ , and the absolute value of  $2$  is also  $2$ . I hope this helped!
