4-Post Jacking Beams for Full Wheel Service. A rolling jacking beam is the only way to turn a four-post hoist into a full-service car hoist.Each frame-engaging jack lifts one-half of your car, and two will raise all four wheels off the runways.

4-Post Jacking Beams - Jacking Beams - BendPak Australia

Ideally, four post lift operators want their lifts to function easily and without incident. Rolling jacks or air jacks, also known as bridge jacks, assist the mechanic in completing many routine tasks (alignment, wheel replacement) more comfortably and quickly than a lift without that assistance or a traditional vehicle jack on the floor would.
