Africa Why Economists Get It

"In his incisive book, Africa: Why Economists Get It Wrong, Jerven provides a critical analysis of the economic development literature on Africa." , African Studies Quarterly "According to Jerven, the dominant narrative of African economic failure persists because economists ask the wrong question: they seek to explain why Africa has failed rather than show how Africa has actually performed.

Africa: Why Economists Get It Wrong (African Arguments ...

Africa: Why Economists Get It Wrong. Not so long ago, Africa was being described as the "'Hopeless Continent'. Recently, though, talk has turned to "'Africa Rising', with enthusiastic voices exclaiming the potential for economic growth across many of its countries. What, then, is the truth behind Africa's growth, or lack of it?

Africa: Why Economists Get It Wrong | African Arguments

Africa : Why Economists Get It Wrong (2015) by Morten Jerven is a very interesting book on how economists have misused dubious statistics on Africa and erroneously constructed a narrative on how African development has failed.

Foreign Affairs "According to Jerven, the dominant narrative of African economic failure persists because economists ask the wrong question: they seek to explain why Africa has failed rather than show how Africa has actually performed.

Africa: Why Economists Get It Wrong, Jerven

Morten Jerven Africa: Why the Economist Got it Wrong (London, Zed Books: 2015) This book provide a critical review of the recent economic history of Africa. He argues that, for most of the past two decades, mainstream economists have been trying to explain the chronic failure of economic growth in Africa.

Africa: Why Economists Get It Wrong - ROAPE

Collier and Gunning (1999) •It is clear that Africa has suffered a chronic failure of economic growth. The problem for analysis is to determine its causes. Collier (2007) •"The central problem of the bottom billion is that they have not grown. The failure of the growth process in these societies simply has to be our core concern

Africa: Why Economist Get It Wrong

It is worth revisiting economic historian Morten Jerven's book "Africa: Why Economists Get It Wrong" (2015), a refreshing contribution to the debate about development scholarship on Africa. Morten Jerven, image via Wikimedia. Development economics as a field of study was formally launched in the 1950s by the Afro-Caribbean economist Arthur Lewis who, out of necessity, wanted to understand how his own country, Saint Lucia, could transform from an agro-based economy into a modern industrial ...

Africa: why western economists get it wrong

Africa: Why Western Economists Get It Wrong. Development economics as a field of study was formally launched in the 1950s by the Afro-Caribbean economist Arthur Lewis who, out of necessity, wanted to understand how his own country, Saint Lucia, could transform from an agro-based economy into a modern industrial state (later, in 1979, Lewis was awarded the Nobel Memorial Prize in Economics for this work, the only black person to have won the prize to date).
