Audi A4 Engine Mount Solenoid

Engine Mount Solenoid Valve – 30-07-2015, 10:41 AM Hi all Having fixed the Xenon headlight range fault and replaced both fuel senders on my 2007 A6 Le Mans, thanks to brilliant advice from this forum, I am now left with one fault:

Engine Mount Solenoid Valve - VW Audi Forum

Its probably the passenger side engine mount. On the later TDi's the mount has a solenoid which controls the rigidity of the mount.. the way the mounts work is that there is a fluid chamber with a plastic body in the middle of it, with small channel cut through it. this allows fluid from the top chamber, through the plastic body, to the bottom chamber. the bottom chamber is rubber lined and can deform under pressure. there is also an airway vented to atmosphere, with a rubber membrane ...

Engine mount solenoid, what is it? | Audi-Sport.net

Re: Engine mount solenoid code 17996. The A4 has electrohydraulic mounts, that adjust stiffness according to engine load to minimise movement to maximise torque transfer, i dont know what detrimental effects a worn/broken mount would cause tbh, as it still acts as a mount, just doesnt change its stiffness.

Question Engine mount solenoid code 17996 - VW Audi Forum

Left Engine Mount Solenoid Valve Open Circuit is the generic description for the P1573 Audi code, but the manufacturer may have a different description for your model and year vehicle. Currently, we have no further information about the P1573 Audi OBDII code.

Audi has Error Code N144 Open Circuit P1573_00 [108].

The A4 engines use three mounts. The two side mounts are large, rubber and metal parts that use a single, central bolt to connect the engine to the chassis. The third mount is a rubber bumper that attaches to a boss on the bottom of the radiator support panel.

Audi A4 Quattro B5 Engine Mount Replacement (1.8T 1997 ...

Notes: Engine Mount -- 034Motorsport Street Density Engine Mounts are manufactured from 65 durometer rubber, which is a significant upgrade from the 45 durometer rubber used in stock B8 Audi S4 mounts. Since the mounts are also void-free and solid-filled, the resulting mount is substantially stiffer than stock, without introducing any additional noise, vibration or harshness into the cabin.
