Being Digital - A book (p)review | WIRED

Nicholas Negroponte (born December 1, 1943) is a Greek American architect. He is the founder and chairman Emeritus of Massachusetts Institute of Technology 's Media Lab, and also founded the One Laptop per Child Association (OLPC). Negroponte is the author of the 1995 bestseller Being Digital translated into more than forty languages.

Nicholas Negroponte - Wikipedia

In 1995 Negroponte published his best-selling book Being Digital, in which he described and anticipated a future composed of digital bits that would be distinct from the archaic analog world comprising objects, or "atoms." He predicted that the things in the world of atoms, such as newspapers, books, films, and cars, would largely continue to exist but would be substituted by digital bits in the form of new media.
