Curriculum design is a term used to describe the purposeful, deliberate, and systematic organization of curriculum (instructional blocks) within a class or course. In other words, it is a way for teachers to plan instruction. When teachers design curriculum, they identify what will be done, who will do it, and what schedule to follow.

Curriculum Design: Definition, Purpose and Types

We don't believe our current assessment model, outcomes or national curriculum levels help us with ensuring our students grasp the 'threshold concepts' in English so we are changing them. We are designing our own assessment and standards to best ensure our students can know the 'threshold concepts'.
