DSC Alarm Systems Customer User Guide

Keep your home safe by changing the master code away from the default. The master code for your DSC PC1555 alarm system is used to manage access codes, modify the system settings and grant access to your property. By default, the master code is set to "1234" when the system is first installed. DSC highly recommend changing your master code to something harder to guess to reduce the chance of an intruder being able to override the alarm system.
