Empires In World History Power

Empires in World History departs from conventional European and nation-centered perspectives to take a remarkable look at how empires relied on diversity to shape the global order. Beginning with ancient Rome and China and continuing across Asia, Europe, the Americas, and Africa, Jane Burbank and Frederick Cooper examine empires' conquests, rivalries, and strategies of domination—with an emphasis on how empires accommodated, created, and manipulated differences among populations.

Empires in World History: Power and the Politics of ...

Burbank and Cooper offer the definition that 'Empires are large political units, expansionist or with a memory of power extended over space, polities that maintain distinction and hierarchy as they incorporate new people' (p. 8), only distinguishing between empires and nation-states with the equivocating declaration that 'the empire-state declares the non-equivalence of multiple populations' while 'the nation-state proclaims the commonality of its people' even if they are not ...

Empires in World History: Power and the Politics of ...

Although the distribution of power is not quantitatively defined on the x-axis, it does provide a rare example of looking at historic civilizations in relative terms. While the Roman Empire takes up a lot of real estate during its Golden Age, for example, we still get a decent look at what was happening in other parts of the world during that period.

Histomap: Visualizing the 4,000 Year History of Global Power

Empires in World History provides a powerful teaching tool for framing the sometimes fluid and complex relationships between empires and nation-states, subjects and citizens, inclusion and exclusion. . . . This book will likely prove most useful in graduate courses in empire and/or world history and to teachers who are seeking a way to teach about empire without simply jumping from one to the next.
