LANL Standard Drawings and Details either (1) depict required format/content or (2) are templates that are completed by a Design Agency (LANL or external AE) for a design drawing package, in a manner similar to specifications.

Engineering Standards Manual: Standard Drawings & Details

The ESM defines the minimum technical requirements for the design, fabrication, construction, commissioning, repair, and replacement of both new and existing systems, structures, and components (SSCs), including both maintenance and modification, for programmatic and facility work. They do not apply retroactively (forcing changes to existing SSCs that are not being touched).

Engineering Standards Manual: Chapters 1 - 17

ASME Y14.100; "Engineering Drawing Practices". This Standard establishes the essential requirements and reference documents applicable to the preparation and revision of engineering drawings and associated lists. It is essential that this Standard be used in close conjunction with ASME Y14.24, ASME Y14.34M, and ASME Y14.35M.

Fundamentals Engineering Drawing Practices

This drawing standards manual establishes the conventions to be adhered to by engineering and drafting personnel in the preparation, revision, and completion of engineering drawings. This manual sets forth the minimum requirements acceptable at GSFC for the preparation of engineering drawings for flight hardware and ground support systems.

NASA Engineering Drawing Standards Manual | Engineers Edge ...

New drawings shall be created with all features in full size (i.e., 1:1 scale). Standard printed drawing scales such as 1:2 are achieved by inserting the title block in the drawing to the inverse of the printed scale (2 in this case). Scale the title block - not the part!! Only standard drawing scales are acceptable.
