Guide: Changes Over Time Flashcards | Quizlet

The Theory of Evolution is considered a Unifying Theory of Biology, because it answers many of these questions and offers and explanation for the data. Lamarke's Theory of Acquired Characteristics Some thought that you would gain or lose features if you overused or didn't use them, and you

Purpose/Goal(s): Within the Evolution domain, students are expected to understand how traits change over time, and how this affects adaptation and survival of a species. In addition, students should know that evidence for the long history of changing life forms can be found in the many layers of sedimentary rock.
