Financial Structure and Development (000)

Introduction. That financial structure and economic development are interrelated is a well known hypothesis (see Goldsmith, 1969, McKinnon, 1973, Shaw, 1973, Kuznets, 1971, Cameron, 1967 and Townsend, 1983; see also Gertler, 1988, for an excellent survey of the background and Greenwood and Jovanovic, 1989, for a recent contribution).

A theory of financial development (Chapter 3) - Finance ...

Raymond Goldsmith's 1969 study provided a comparison of the main types of U.S. financial institutions in 1900 and 1963. Goldsmith's analysis revealed that in 1900, 62.9 percent of total assets of all the financial institutions were held by commercial banks; by 1963 that percentage was 32.2.
