Formal Languages and Compilation eBook por Stefano Crespi ...

But if the language were regular, then $xyyz$ would be in the language, which contradicts the assumption that the language of strings of 0's whose length is a perfect square is a regular language. Exercise 4.1.4(a) We cannot pick w from the empty language. Exercise 4.1.4(b) If the adversary picks $n = 3$, then we cannot pick a w of length at least n .
