You have a 2018+ model remote actuated Fox fork, and you have a 2015 model Fox remote rear shock. In order for this combination to work, there are a couple of options. Option1) The 2018+ fork can be swapped to a PTL topcap (from the PTU which is stock for 2018/19), and you can then use the Scott 3-position lever to actuate fork and shock together.
