Lab 1: Introduction to Mineral Identification Lecture Goals: A) Definitions B) How to identify minerals C) Physical Properties Reference: Haywick (2001). GY 111; Earth Materials Lab Manual; Chapter 1. A) Definitions This will be a long lecture. It's purpose is to introduce the basic tests and mineral properties that you

GY 111 Lab 1 Intro to minerals - University of South Alabama

All minerals high on the list can scratch all the listed minerals below them. For example, Quartz is a 7 on the hardness scale so it would be able to scratch any mineral that is a 6, 5, 4, 3, 2, 1. There are also some common materials used to test hardness. A fingernail is a 2.5, a penny is a 3.5, and a steel nail is 6.5.
