Academy**

1. E. The vertex is the point, formed by the two rays of an angle.

Thus, H is the vertex of the angle. 2. C.

$C = \pi d$ . Substituting 8 for d gives  $C = 8\pi$ , where C is approximately 25.13.

3. B. The area of a triangle may be found by using the formula,  $A = \frac{1}{2}bh$ , where b represents the base and h represents the height. Thus, the area
