In 1500, the income differences were small, but they have grown dramatically since Columbus reached America. Since then, the interplay between geography, globalization, technological change, and economic policy has determined the wealth and poverty of nations. The industrial revolution was Britain's path breaking response to the challenge of globalization.

Global Economic History: A Very Short Introduction - Ebook

...

'The Industrial Revolution' shows that the period from 1760 to 1850 was a turning point in world history, for it inaugurated the era of sustained economic growth. Technological change was the motor of the Industrial Revolution, but why did it happen in England rather than the Netherlands, France, China or India? Britain's high-wage, cheap-energy economy made it profitable for British firms ...

3. The Industrial Revolution - Very Short Introductions

Global Economic History Quotes Showing 1-2 of 2 "The Western countries have experienced a development trajectory in which higher wages led to the invention of labour-saving technology, whose use drove up labour productivity and wages with it."
