The new Goodman/amana or goodmana unit are all switching to comfortbridge and do not have the option for comfortnet. Goodmana states this is from market research that homeowners want to control high end two stage and modulating units with retail smart thermostats such as Nest or Ecobee.

Goodman Comfort Bridge VS Comfort Net - HVAC-Talk: Heating ...

The Goodman CTK-02 Communicating Control Thermostat programmable touch-screen digital control works with both the Amana brand and Goodman brand ComfortNet-ready heating and cooling systems. The ComfortNet Communicating Control System allows all components of your system to communicate with each other, enabling optimum airflow and efficiency and easy diagnostics.

Goodman High-Definition Programmable Communicating Thermostat

ComfortBridge is a board-based communication platform (versus the thermostat-based ComfortNet technology). It uses Bluetooth® technology to commission, configure and diagnose equipment. This frees you, as the contractor, to use the thermostat control of your choice with the equipment without sacrificing the communicating benefits of the system.

Goodman ComfortNet - Internet Gateway | Goodman THM6000R1002

I agree with the other 1 star reviews. This thermostat was installed with my new Goodman system in July 2018, worked well for about 6 months. Then it went on the fritz. The Goodman high efficiency heat pump with gas auxiliary works great, but the thermostat leaves a lot to be desired. Professional install of new system in 2018.
