Mastering Your Own Mind | Psychology Today
The brain/mind is what creates emotions and thoughts. The heart merely supplies blood to the brain and the rest of the body. We also know that the brain guides the functioning of every other organ, including the heart. But the heart keeps the brain alive using the blood.

The Heart vs. The Mind (scientific explanation) - A false ...
Neurocardiology reveals that the heart has a mind of its own, and that this "HeartMind" actually relays more information to the brain than the brain sends to it. The HeartMind is the principal instrument that controls the amplitude and magnitude of the HeartLight, which can be consciously modulated at will.
