Hello Startup Book

Hello, Startup is a practical, actionable, how-to guide to startups. The book consists of three parts: Products, Technologies, and Teams. Although at its core, this is a book for programmers, by programmers, only Part II, Technologies, is significantly technical. Parts I and III should be accessible to technical and non-technical audiences alike.

Hello, Startup - an O'Reilly book by Yevgeniy Brikman.

Startup Resources: Minimum Viable Product | Hello, Startup ...

This book is the "Hello, World" tutorial for building a startup. I wish I had something like it back in college. By the time I graduated, I had a BS, a Masters, a bunch of internship experiences—and absolutely no idea what I was doing. What technologies should I learn and use? How do I build a product that doesn't look terrible?
