The Holden V8 engine is an overhead valve (OHV) V8 engine that was produced by the Australian General Motors subsidiary, Holden between 1969 and 2000. The engine was used initially in the Holden HT series; it was later utilised in the Torana and Commodore ranges.

Holden V8 engine - Wikipedia

The Holden straight-six motor is a series of straight-six engine that were produced by General Motors–Holden's in Australia between 1948 and 1986. The initial Grey motor was so dubbed because of the colour of the cylinder block, later motors came in the form of a Red, Blue, Black, and the four-cylinder Starfire engine. These engines were fitted to all Australian designed Holdens of the same ...

History of the Holden V8 part one: Red motor 253/308. After February 1984 (VK series) the 308 engine block casting designation changed to 5.0, and the 253 was dropped. In August 1984 Holden reduced the stroke of the 308 engine by 40thou (1mm), giving a capacity of 4997cc (304ci). This change involved a new crankshaft, rods, pistons and cam.
