Honda Beat Classics for Sale - Classics on Autotrader

The Honda Beat is a rear wheel drive, mid-engined two-seat roadster kei car produced from May 1991 to February 1996. The Beat was the last car to be approved by Soichiro Honda before he died in 1991. The total number of cars produced was around 33,600. Most of the production (around two-thirds) occurred in the first year, and then production and sales fell drastically.

Honda Beat - Wikipedia

The Honda Beat is a typical Honda product when it comes to an average Joe's mind. It feels solidly built for a scooter of its price and size. The fit and finish as well as build quality is quite impressive, something which is hard to find and examine in an entry level scooter. Also, the aggressive bodywork as well as Read More
