Hospital Planning And Designing | Hospital Architecture ...

When architecture, medical planning, interior design and environmental graphics harmoniously blend, a first-time visitor can walk through a space without the aid or "you are here" maps. Aligning the patient journey with key architecture and interior elements alleviates the need for excessive signage, which can become distracting.

10 Elements of the Perfect Hospital Design - Architizer ...

Hospitals are complex structures to say the least. A concise combination of form and function; of societal need and cultural nuance. They are an integral part of every society on earth, and yet the designs of these buildings differ hugely from country to country. Despite this, a set of recommended pre-requisites unify these institutions.

Hospital design: intelligent architecture where it matters ...

Hospital architecture design features such as bacteria-resistant surfaces, antimicrobial fabrics, bacteria-killing lights, disinfectant stations, sink visibility, and careful engineering of the building's ventilation system can work toward decreasing the spread and rate of infection in a hospital setting.

Hospital Architecture Design & Planning: Promoting Patient ...

Rafael Viñoly Architects was selected for its unique approach to healthcare design: rather than creating the typical base-and-tower hospital building, the firm proposed a modular plan that can be easily adapted for a variety of uses, thus allowing both for incremental expansion of the hospital building and a horizontal development strategy ...

Rafael Viñoly Architects | New Stanford Hospital - Rafael ...

A hospital's interior design should be based on a comprehensive understanding of the facility's mission and its patient profile. The characteristics of the patient profile will determine the degree to which the interior design should address aging, loss of visual acuity, other physical and mental disabilities, and abusiveness.

Hospital | WBDG - Whole Building Design Guide

Local firms Billard Leece and Bates Smart – along with the Dallas, Texas branch of multinational architecture firm HKS – provided the design for the hospital, which has a distinctive façade inspired by the leaves of a tree. The leaf-like features also act as sunshades and range in color from green to red.
