"I just finished up installing the plenum reinforcement kit in my brothers 1996 Dodge Ram 1500 4x4 5.9 Magnum. I knew, from the symptoms it was presenting, that it was the plenum gasket, and through little research, came across Hughes Engines. I'm not a Dodge guy, so I never looked into them before my brothers truck started acting up.

Hughes Engines fits the bill and took an in-depth look at one of those intricacies, lifter bore sleeving, in a Tech Center bulletin: Sleeving lifter bores can be considered part of a complete block blueprinting, although many shops do not suggest or recommend it because they cannot do the work. Generally the only shops that do this job are ...

### **Hughes Engines Tech Center: Lifter Bore Lineup - Mopar ...**

The Hughes Engines Tech Center put a trio of small block intakes to the test and the numbers are hard to argue: These tests were designed to show the power potential of each manifold and each porting level. This was NOT a stock small block engine. It had very good heads, a mechanical roller cam, and needed race gas.
