Khan Academy's Algebra 1 course is built to deliver a comprehensive, illuminating, engaging, and Common Core aligned experience!

Algebra 1 | Math | Khan Academy

Algebra 1 Regents - Question #17. Since the variable a is negative, it will change the graph from being above the x -axis (positive) to below the x -axis (negative).. Since $-1 < a < 0$, multiplying by a would make the absolute value of y smaller. The correct answer is 3 where the graph is negative and the graph is "flattened" because the absolute value of y is reduced.
