### Introduction to Radar Systems (0072881380) by Skolnik, Merrill

Introduction to Radar Systems and Signal Processing. 1.1 History and Applications of Radar. The word “radar” was originally an acronym, RADAR, for “radio detection and ranging.” Today, the technology is so common that the word has become a standard English noun.

### CHAPTER Introduction to Radar Systems and Signal Processing

Radar is a classic example of an electronic engineering system that uses many specialized elements of technology practiced by electrical engineers, like signal processing, probability, antennas and receivers. All of these topics are covered in Skolnik, in addition to the standard radar topics.
