Many managers lack fundamental training in managing people, which is usually manifest in their inability to practice the significant soft skills necessary to lead. But, even more importantly, many managers lack the values, sensitivity, and awareness needed to interact effectively all day long with people.

The Top 10 Mistakes Management Makes Managing People

Employee productivity measures the outputs of employees in any given business. This can either be done very quantitatively, by tracking costs and time to compare that against the results, or a business can approach it in a more general, quantifiable way. Employee and workplace productivity is a little like breathing.

11 Strategies to Increase Productivity in the Workplace

A time-tracking record is an excellent way to measure productivity in your team. It shows you exactly how each person is spending their time. For a manager, that information is golden — it helps you see where employees are working inefficiently, so you can use the learning curve to help them improve and increase productivity.
