LCL 469: Find in a Library. View cloth edition. Print. Email. Marcus Manilius, who lived in the reigns of Augustus and Tiberius, is the author of the earliest treatise on astrology we possess. His Astronomica, a Latin didactic poem in five books, begins with an account of celestial phenomena, and then proceeds to treat of the signs of the zodiac and the twelve temples; there follow instructions for calculating the horoscoping degree, and details of chronocrators, decans, injurious degrees, ...

Manilius, Astronomica | Loeb Classical Library
The Astronomica of Marcus Manilius Book 1 By the magic of song to draw down from heaven god-given skills and fate’s confidants, the stars, which by the operation of divine reason diversify the chequered fortunes of mankind; and to be the first to stir with these new strains a the nodding leaf-capped woods of Helicon, as I bring novel offerings untold by any before me: this is my aim.

MANILIUS, Astronomica | Loeb Classical Library
Astronomica Book Two. Considering its technical nature the second book is very elegantly written: it deals with the two circles involved in every horoscope—the movable circle of the twelve zodiacal signs and the immovable circle of the twelve temples. First, however, we are regaled with an extended proem celebrating those poets who have inaugurated different genres of hexameter poetry; this ...

Additionally, an AD 988 letter from Gerbertus Aureliacensis to the abbey at Bobbio in which a request is made for a work "by M. Manilius (or possibly Manlius) about astrology" (M. Manilius (v.l. Manlius) de astrologica) is evidence that a copy of the Astronomica was probably kept in the library at Bobbio.

Astronomica (Manilius) - Wikipedia
Marcus Manilius Marcus Manilius was a Roman poet who wrote an instructional poem on astrology in Latin sometime around the early 1st century CE. Due to a loss of earlier source texts, Manilius’ Astronomica is the earliest textbook on Hellenistic astrology that has survived largely intact into the present time. The Dating of Manilius

Marcus Manilius - The Hellenistic Astrology Website
In Astronomica (first century CE), the earliest extant treatise we have on astrology, Manilius provides an account of celestial phenomena and the signs of the Zodiac. He also gives witty character sketches of persons born under particular constellations.
