The W211 is the chassis code for the Mercedes-Benz E-Class for the model years 2003-2009. For the third generation E-Class, the W211 had gone through many changes to distinguish itself from the previous Mercedes W210 that it replaced. Coming in both sedan and wagon body styles, the W211's exterior design was sleeker and smoother, straying away from the older boxier look, but still sporting the quad-circular headlights and large front grille.

Just a tip on an emerging issue we are seeing with SBC units on the 211 chassis and possibly some 230 chassis vehicles as well. The pump/module is replaced for whatever reason - timeout, electrical failure, etc and a new pump is installed. When the new pump is installed C1611 sets in the ESP module and the ESP warning comes on in the cluster. When the old unit is plugged in the code can be

All Mercedes vehicles made since 1959 have 12-digit chassis numbers. The first three numbers tell you the body style; the second three numbers indicate the vehicle model; the next two numbers show where the Mercedes was manufactured, what type of transmission it has and if it is driven on the right or left side; and the last six numbers are the vehicle's serial number.
