I have a mercury 200 efi saltwater series 1999 engine on my boat. It has ran almost worry free for 13 years and was running perfect the two full days on the water before I had a serious problem occur. It just shut down and I was able to re start and hobble back to dock and there was obviously an engine problem.

If I remember correctly, the "Saltwater" blue graphics Mercs were originally only available in 25" shaft length, 90-250 HP, and with twins also designated counter rotation availability. The "Offshore" name preceded the name "Saltwater". My 1997 200 EFI's use the "Offshore" designation, and do have different graphics than the 20" models.

Mercury Salt Water Series - Moderated Discussion Areas

I just bought a 2000 SD 237 with 240 hours. It came equipped with a 200 HP Yamaha Salt Water Series II 2 stroke. It seems to run fine and has more than enough power. It has that unpleasant two stroke odor when idling. The previous owner was using an off brand of oil, I am wondering if using Yamalube might help with the odors.
