Microsoft Visio - Subordinate Layouts. We can continue building on the org chart previously created. Based on the organizational hierarchy, corresponding shapes can be added to the existing shapes. Visio will then automatically create the connection and align the new shape in the diagram.

Microsoft Visio - Subordinate Layouts - Tutorialspoint

Microsoft Visio - Aligning Smartshapes. Often, inserting and deleting shapes can disturb the alignment of the diagram. It can also make the elements of the diagram space out unevenly. To get around this, Visio provides tools that automatically align and space the shapes in your diagram so that it looks perfect.

Microsoft Visio - Aligning Smartshapes - Tutorialspoint

Visio shapes are ready-made objects that you drag onto your drawing page — they are the building blocks of your diagram.. When you drag a shape from the Shapes window onto your drawing page, the original shape remains on the stencil. That original is called a master shape.The shape that you put on your drawing is a copy — also called an instance — of that master.
