### Windows Home Server 2011 - Wikipedia

12/8/2012 5:53:00 PM: The Windows Home Server beta and that screen capture program did not get along. The machine crashed, and I mean hard: It wouldn't boot into Windows Home Server, nor would it boot to the Windows Home Server DVD or to any bootable medium I added to the machine. The server was simply dead in the water.

**Configuring Windows Home Server 2011 : Configuring the ...**

\* Home Server 2011 doesn't come with any anti-virus software, and moreover the standard MS defender product and many other PC products won't work with it. Does the book mention this? No, but it does state how important AV and anti-malware software is for your home PC.
