Cultural Studies. Museums today are more than familiar cultural institutions and showplaces of accumulated objects; they are the sites of interaction between personal and collective identities, between memory and history. The essays in this volume consider museums from personal experience and historical study, and from the memories of museum visitors, curators, and scholars.

Museums and Memory | Edited by Susan A. Crane

Museums today are more than familiar cultural institutions and showplaces of accumulated objects; they are the sites of interaction between personal and collective identities, between memory and history. The essays in this volume consider museums from personal experience and historical study, and from the memories of museum visitors, curators, and scholars.

Museums and Memory by Susan Crane - Goodreads

A sophisticated, multilayered examination of a now trendy topic in anthropology, this work seeks to question widely held notions about collective memory, always reminding us that museums and monuments inform each of us of the past in some particular way and insist that we add it to our consciousness—that we remember it.

Museums and Memory | University of Tennessee Press

Rarely in living memory has so much art been out of view for so long. But signs of resilience are everywhere. Many museums have reopened or are in the process of doing so, and it's clear that ...

Museums Are Back, but Different: A Visitor's Guide - The ...

Memory in museums has often been confused with history. To recall through galleries and exhibits what happened before – as so many of our museums continue to do – constituted an exciting remembrance of things past, uniting as it did historical ideas with the material proof of their

veracity.

Museums and Memory | Curious

The museums discussed celebrate Ottoman and Early Republican pasts, linking to geo- and party politics, people's senses of who they are, popular memory culture, and competing national stories and identities vis-à-vis Europe and the wider world. Both museums use dramatic, emotive panoramas as key displays and the research at the heart of this book explores this seemingly anachronistic choice, and how it links with memory cultures to prompt visitors to engage imaginatively, socially ...
