Z.How do we determine the essential or morally praiseworthy traits of human nature? Traditional natural law theory has picked out very positive traits, such as "the desire to know the truth, to choose the good, and to develop as healthy mature human beings". But some philosophers, such as Hobbes, have found human beings to be essentially selfish.

Natural Law Theory

The law of nature, which is "nothing else than the participation of the eternal law in the rational creature," thus comprises those precepts that humankind is able to formulate—namely, the preservation of one's own good, the fulfillment of "those inclinations which nature has taught to all animals," and the pursuit of the knowledge of God.

natural law | Definition, Theory, & Ethics | Britannica

Law of Nature: If the truth of a statement is verified repeatedly in a reproducible way so that it is regarded as generally valid, then we have a natural law. The structures and phenomena encountered in the real world can be described in terms of the laws of nature in the form of principles which are universally valid.

Principles of Laws of Nature | Answers in Genesis

While a natural law theorist might downplay the importance of derivationist knowledge of the natural law, it is hard to see how a consistent natural law theorist could entirely reject the possibility of such knowledge, given the view that we can provide a substantial account of how the human good is grounded in nature: for to show that the ...

The Natural Law Tradition in Ethics (Stanford Encyclopedia ...

Natural law (Latin: ius naturale, lex naturalis) is law as seen as being independent of, and pre-existent to, the positive law of any given political order, society or nation-state. Such genesis is seen as determined by nature (whether that reflects creation, evolution, or random chance), and a notional law of nature treated as objective fact that is universally applicable; that is, it exists ...
