Obstetrics And Gynecology Principles For Practice

Ethical decision-making in obstetrics and gynecology is complicated by several factors that are peculiar to the field. The most significant of these in the practice of obstetrics is that the provider is simultaneously caring for two patients—the mother and the fetus—both of whose interests the provider owes a duty to protect.

Clinical Ethics in Obstetrics and Gynecology | Obgyn Key

Obstetrician-gynecologists, like other physicians, often face a conflict between principles of

beneficence–nonmaleficence in relation to a patient and respect for that patient’s personal autonomy. In such cases, the physician’s judgment about what is in the patient’s best interests conflicts with the patient’s preferences.
