benchmarks.

Oracle SQL High-Performance Tuning by Guy Harrison

Oracle performance tuning engagement lasts about five days, in which time the Oracle server, Oracle instance, Oracle objects and Oracle SQL statements may be tuned for optimal performance. [Click here for Burleson Consulting prices](#)

Oracle performance Consulting

Another key piece of performance tuning information is the SQL statement a session is executing, which will provide more insights into the workings of the session. The same V\$SESSION view also shows the SQL statement information. The SQL_ID column in the V\$SESSION view shows the ID of the last SQL statement executed.
