As an openly out and proud femme lesbian at work, I slip under the radar of both the straight and gay community and experience 'femme invisibility' and the assumption of heterosexuality. I've experienced the scary moments of starting somewhere new and having to go through the whole process of every employee finding out that I'm gay (of course, the process never ends with inevitable turnover).

The Mosaic Wok's carbon steel material is the perfect marriage of sturdy construction and lightweight design. This unique material is the preferred choice for professional chefs because it responds to temperature changes extremely fast. This means that the Wok can reach the perfect stir-frying temperature in less than a minute.

Read Book Out Au Wok Metaphorically, it's the "breath of the wok," or a characteristic the pan takes on when certain conditions are met, almost like a personality trait. It refers to the richly blended, smoky taste imparted when food is stir fried over high heat, with just the right amount of oil in a wok with a well-seasoned patina. ...

This wok is made from aluminum, so it's lighter in weight than steel woks. It's oven safe to 350 degrees, and it's also dishwasher safe for easy cleaning. A large wok can be a bit difficult to fit into a dishwasher, but this is nonstick inside and out, so it's easy to wash by hand, too.
