Air law, the body of law directly or indirectly concerned with civil aviation. Aviation in this context extends to both heavier-than-air and lighter-than-air aircraft. Air-cushion vehicles are not regarded as aircraft by the International Civil Aviation Organization (ICAO), but the practice of individual states in this regard is not yet settled. The earliest legislation in air law was a 1784 ...

Air pollution is measured with the Air Quality Index, or AQI. The lower the AQI, the cleaner the air is. However, if you are outside when the AQI is over 100, it's about the same as breathing in exhaust from a car all day! Things that cause poor air quality are forest fires and cities with lots of car traffic. If the AQI is higher than 100 ...

Catastrophic spills can occur, as when two vessels collided at the port of Durban, South Africa, in October, 2017, dumping 49 tons -or roughly 2 billion pellets-into the sea. Just last month, a cargo ship on the Mississippi River in New Orleans broke loose from its moorings, causing a major pellet spill. Far more often, pellets escape more or less routinely at industrial and transportation ...
