pharmacology, problem based exercises, pharmacovigilance and computer assisted learning. These changes have rendered the existing practical journals and manuals either obsolete or incomplete. A need has, therefore, been felt for a manual that documents why and how a practical should be conducted. This

Practical manual of pharmacology

Laboratory Manual Of Pharmacology The fundamental reason for laboratory work in any subject, not entirely observational, is the training it gives in systematic observation. One of the best possible methods for developing adequate apprehension of the essentials of a problem is to require the student to record his observations in an orderly, systematic manner.
