Pharmacotherapy management by a clinical pharmacist can improve quality of care and lead to better health outcomes. It's designed to ensure appropriate drug selection and monitoring while communicating with all providers involved in your care.

Providence St Vincent Medical Center Pharmacotherapy

Abstract. Pharmacotherapy is a critical adjunct to smoking cessation therapy. Little is known about relative preferences for these agents among smokers in primary care settings. In the context of a population-based clinical trial, we identified 750 smokers in primary care practices and independent of their readiness to quit offered them a free treatment course of either bupropion or transdermal nicotine replacement (TNR).

Smoking cessation pharmacotherapy preferences in rural

Moderators of response to cognitive behavioural therapy as an adjunct to pharmacotherapy for treatment-resistant depression in primary care. *Journal of Affective Disorders*, 174 , 272-280. doi: 10.1016/j.jad.2014.11.057.
