new colour in any ornamental flower crop not only fascinates us but also gives a thrust to know more about their breeding technologies.

How to read Breeding and Biotechnology of Flowers: Vol.01 ...

The key difference is that horticultural products have to both look good and taste good! For example, if you are enjoying a fresh, juicy tomato on a sandwich—a horticulturist grew it. If you are dipping french fries into ketchup, a crop science graduate running an agricultural farm grew it. Studying horticulture, working in agriculture
