Answer To A Ball Of Energy

motion unless it is acted on by another force. 10. The end of the passage states that without the forces of physics, every time you kicked a soccer ball or jumped on a bike, the ball and the bike would keep going, forever. Explain why the ball and bike would keep going, using evidence from the passage.

Help Us Understand Physics

the ball will go, and the further it will travel.

How much force you apply to the ball, that is, will often determine whether you score a goal or not. The combination of force and distance equals what is called “work.”. In this case, we don’t mean the noun form of work, like a job. We are talking about work as

a.

The Simple Physics of Soccer

The higher the ball is raised, that is, the more damage it will do to the ground when it is dropped. Similarly, once the wrecking ball is attached to a pendulumlike chain, the higher it is raised, - the more damage it will do to the building's wall.
