engine information to those combinations that are mostly streetable. These modifications will provide from 80 to 120 horsepower at the rear wheel of a late model 80 CID Harley-Davidson big twin Evolution engine. If you want to build your own Stage 3 engine, here are the part used to create an 82 HP engine that can be assembled over a weekend.

### Harley engine modification.

For proper engine break-in, on Evolution 80 cubic inch engines and Twin Cams, use a multi-weight oil (20w50), on older models use straight weight oil. What the 20 w 50 weight rating means is the oil is guaranteed, by the manufacturer, to be a 20 weight oil at 0 degrees Fahrenheit, and a 50 weight oil at 200 degrees Fahrenheit.

We Created an Affordable EV Performance Package that has Become One of Our Most Popular Kits! We call it the 80/80, because it takes your stock 48 horsepower 80 incher and pumps it up to an easy 80+ rear wheel horsepower with 90 ft/lbs of stump-pulling torque! This package is designed to give you the most for your performance dollar.

### Zipper's 80/80 Evolution® Big Twin Kit for Carbureted Models

I would tell you to put your stock engine on the shelf and buy another if you dont plan on having HD rebuild it for you. The casting for Evo engines had issues with the cast collar on the left engine case around the crankshaft on models from 1988 to 1991. Both my 1990 Ultra and my buddies 1988 FXR developed the same crack in the casting.

We had our 80" evo top end done at about 78,000 and it had 107,000 when I pulled it for the Ultima 113. I don't have enough miles on my 113 to really know how much I will like it, Jireh sells Ultima engines and they are priced the same if you get a 96" or 127". I was told the 100" is the most reliable but the 113 is the most popular.

I am just about to start building my own sportster bobber and was wandering if anyone could tell what manuals I could get to help me with stripping down the engine and rebuild. Someone has suggested that I get someone else to do it but 1)It costs a lot. 2)I'd like to try and build this bike myself so that I may get a fuller understanding of the engine.
