Podcast - Northwell Health | Phase2

Reclaiming the nation's medical heritage. For many years, medicine throughout the United States was an intensely local and personal matter. Doctors established long-term relationships with individuals and families, often treating multiple generations, providing cradle-to-grave care that was built on understanding, engagement, and personal knowledge of patients' needs.

Reinventing Practices by Reinventing the Care Cycle

Asking about "what matters" can help in uncovering what is most important to the patient. If you asked "what matters to you", you can learn about meaningful ways to enhance your partnership with patients, what to incorporate into mutual goal setting, and what can be done to immediately provide a better patient experience.
