Reproductive endocrinologists, or REs, are fertility/infertility specialists. They are the only doctors trained in providing fertility treatments using assisted reproductive technologies (ART) such as in vitro fertilization (IVF) and egg freezing.

What is a reproductive endocrinologist?

How I Became an NP: Reproductive Endocrinology and Infertility. I didn't always know I wanted to be a women's health nurse practitioner. Honestly, I didn't even know I wanted to be a nurse. Here's what I did know: I was skilled in science. I wanted to work directly with people, and I needed to have many options for growth in my career.

How I became an NP: Reproductive Endocrinology and Infertility

Analyzes various reproductive and gynecological disorders encountered in the care of women who do not wish to conceive, as well as those who have difficulty with conception, early pregnancy, and menopause. Discusses the latest strategies in the treatment of infertility, pelvic pain, ectopic pregnancy, and osteoporosis.

Reproductive endocrinology and infertility (REI) is a surgical subspecialty of obstetrics and gynecology that trains physicians in reproductive medicine addressing hormonal functioning as it pertains to reproduction as well as the issue of infertility. While most REI specialists primarily focus on the treatment of infertility, reproductive endocrinologists are trained to also test and treat ...

Reproductive endocrinology and infertility - Wikipedia

Product Information. Reproductive medicine is the most dynamic area within obstetrics and gynecology and, arguably, the most complicated. An explosion of scientific understanding and technological capabilities - particularly in contraception, infertility and menopause - has transformed the specialty into a high-profile subject that touches upon endocrinology, embryology, andrology, surgery, social ...
