Updated Part 91 operational and maintenance templates have been issued to assist operators in developing an RVSM manual for FAA approval and Letter of Operational Authorization (LOA). Job Aid: Part 91 Operator Application To Conduct RVSM Operations (212 KB, Word)

Reduced Vertical Separation Minima (RVSM) | NBAA ...

RVSM was implemented to reduce the vertical separation above flight level (FL) 290 from 2000-ft minimum to 1000-ft minimum. It allows aircraft to safely fly more optimum profiles, gain fuel savings and increase airspace capacity.

Reduced Vertical Separation Minimum (RVSM)

Description. A program was initiated by ICAO in 1982 involving worldwide studies to assess the feasibility of a reduction of the Vertical Separation Minima (VSM) above FL290 from 2,000 feet 609.6 m to 1,000 feet. The principal benefits which the implementation of the reduced VSM were expected to provide were:

Reduced Vertical Separation Minima (RVSM) - SKYbrary ...

Authorization is required for RVSM. However, the FAA has changed the requirements allowing some aircraft equipped with ADS-B to operate within the contiguous United States RVSM airspace without applying for operator-specific authorization. Since the guidance does not specify how an operator can verify authorization, we are still recommending that ALL operators carry an operator-specific ...
