The 1:10 scale Saturn V shows the configuration of the vehicle which launched the Apollo astronauts to the moon and placed the United States' first space station, Skylab, into Earth orbit. The model is normally shown outdoors in the vertical position support by guy wires. However, it may be displayed indoors if ceiling height permits.

### **NASA - Models**

Finally, the (1:144) Saturn V. This was the hardest model I made so far, and took, like the SLS, very long (MONTHS (mostly waiting for glue to dry, and taking one- or two-day breaks)) Man, where do I start. First off, this thing is so tall it can't fit on my model shelf without the ceiling getting in the way, so I put it on a lower shelf.
