Simmel, On Individuality and Social Forms

Simmel always begins and ends with the individual. He assumes that the individual is born with certain ways of thinking and feeling and most social interactions are motivated by individual needs and desires. Encounters with others are molded to social forms in order to facilitate reciprocal exchanges. These forms constitute society for Simmel.

Cultural Reader: Georg Simmel on society and the individual

The meaning of individuality, according to Simmel, can be separated into two more specific meanings: (1) individuality in the sense of freedom and responsibility for oneself that comes from a broad and fluid social environment; and (2) in the qualitative sense that an individual being distinguishes

her/himself from all others, that being different has a positive meaning and value for that person's life.

Sociology 101 - Social Sciences at Hunter College (CUNY)

Simmel proposes that in social geometry, there are two different groups that are formed: dyads and triads. A dyad is a group of two people, whereas a triad is a group of three people. Simmel suggests that when dyads form in a society, each person is able to retain their individuality.

Georg Simmel Theory Explained - HRF

Simmel notes: The deepest problems of modern life derive from the claim of the individual to preserve the autonomy and individuality of his existence in the face of overwhelming social forces, of external culture, and of the technique of life. (Farganis, p. 136). Simmel makes three assumptions about the individual and society.

Notes on Georg Simmel - University of Regina

Simmel focused on these forms of association while paying little attention to individual consciousness. Simmel believed in the creative consciousness that can be found in diverse forms of interaction, which he observed both the ability of actors to create social structures, as well as the disastrous effects such structures had on the creativity ...

Georg Simmel - Wikipedia

For Simmel, culture referred to "the cultivation of individuals through the agency of external forms which have been objectified in the course of history". Simmel discussed social and cultural phenomena in terms of "forms" and "contents" with a transient relationship; form becoming content, and vice versa, dependent on the context.

Georg Simmel (Author of On Individuality and Social Forms)

Simmel compared the psychology of the individual in rural life with the psychology of the city dweller. His investigation determines that the human psychology is altered by the metropolis. The individual must contend with such change in a metropolitan environment that the psychology of such an individual erects defences to protect itself from the stimuli of the metropolis.
