The share of U.S. adults who say they use certain online platforms or apps is statistically unchanged from where it stood in early 2018 despite a long stretch of controversies over privacy, fake news and censorship on social media, according to a new Pew Research Center survey conducted Jan. 8 to Feb. 7, 2019. More broadly, the steady growth in adoption that social platforms have experienced ...

### Social media usage in the U.S. in 2019 | Pew Research Center

As was true in previous Pew Research Center surveys of social media use, there are substantial differences in social media use by age. Some 88% of 18- to 29-year-olds indicate that they use any form of social media. That share falls to 78% among those ages 30 to 49, to 64% among those ages 50 to 64 and to 37% among Americans 65 and older.
