A Stern drive, sometimes also called an I/O, or Inboard/Outboard, is essentially a combination between inboard engine and an outboard drive unit. The engine itself is oriented like an automotive engine, and the rear of the engine mates with a drive unit much like the lower unit of an outboard, which can tilt.

### Compare Sterndrives & Inboards | Mercury Marine

Mercurys MerCruiser inboard engines install inside the hull of your craft. The motor typically connects to the drive shaft, which transfers power and steering directions to the exterior of the craft. This protects them from the elements and offers a number of other benefits, including:

### MerCruiser Complete Inboard Gas Engines for sale | eBay

Adding Antifreeze and Fogging Oil to an Inboard engine The procedure is a little different for an inboard power plant. Warm the engine up to operating temperature, just like with a sterndrive. Instead of using a winterizing kit, you'll need a five-gallon bucket, and enough antifreeze for your engine and related plumbing (at least two gallons).
